McGrath RentCorp Announces Results for First Quarter 2020

LIVERMORE, Calif., April 29, 2020 (GLOBE NEWSWIRE) -- McGrath RentCorp (NASDAQ: MGRC) (the "Company"), a diversified business-to-business rental company, today announced total revenues for the quarter ended March 31, 2020 of \$129.5 million, an increase of 6%, compared to the first quarter of 2019. The Company reported net income of \$20.2 million, or \$0.81 per diluted share, for the first quarter of 2020, compared to net income of \$18.4 million, or \$0.75 per diluted share, for the first quarter of 2019.

FIRST QUARTER 2020 COMPANY HIGHLIGHTS:

- **Income from operations** increased 9% year-over-year to \$29.7 million.
- **Rental revenues** increased 8% year-over-year to \$89.5 million.
- **Adjusted EBITDA**¹ increased 10% year-over-year to \$54.9 million.
- **Dividend rate** increased 12% year-over-year to \$0.42 per share for the first quarter of 2020. On an annualized basis, this dividend represents a 3.0% yield on the April 28, 2020 close price of \$55.69 per share.

Joe Hanna, President and CEO of McGrath RentCorp, made the following comments regarding these results and future expectations:

"Since our last quarterly update in late February, we have seen a significant shift in our operating environment. We have transitioned from the generally positive and stable conditions for our businesses, which prevailed for the majority of the first quarter, to current conditions of higher uncertainty, disruption and more difficult operating environment overall related to the COVID-19 pandemic.

In the rapidly changing operating environment, we have moved quickly to keep our employees safe, support our customers as they continue to operate, and protect long-term stakeholder value. The health and safety of our team members has been paramount. We have taken significant steps to ensure we are operating safely, consistent with national and local guidelines, while maintaining business continuity across the country for our customer-facing and production team members, as well as support staff.

We were pleased with our start to 2020, completing a successful first quarter of top and bottom line growth. Our first quarter companywide rental revenues grew 8% and operating income grew 9% as we kicked off the year with good business momentum. Standout performers were Mobile Modular with continued strength in both classroom and commercial rentals and TRS-RenTelco with growth in both general purpose and communications customer segments. We saw fewer rental opportunities at Adler compared to a year ago, as demand conditions continued to be soft.

Entering the second quarter, we have experienced varying degrees of weakening demand across our business segments and geographic regions as customers adjust to COVID-19 conditions. Due to the current circumstances, our ability to see into the future is very limited at this time, and the prolonged impact of COVID-19 conditions on the US economy and our business is unknown.

We have an engaged and dedicated employee team, many long-term customer relationships, and a solid financial foundation, all of which I believe will help us successfully navigate through the current uncertainty until more normal conditions return."

DIVISION HIGHLIGHTS:

All comparisons presented below are for the quarter ended March 31, 2020 to the quarter ended March 31, 2019 unless otherwise indicated.

MOBILE MODULAR

Rental related services revenues increased 25% to \$18.1 million, with associated gross profit increasing 35% to \$4.8 million. Sales revenues decreased 9% to \$7.3 million and gross margin on sales increased to 35% from 34%, resulting in a 7% decrease in gross profit on sales revenues to \$2.6 million. Selling and administrative expenses increased 13% to \$17.4 million, primarily due to higher allocated corporate expenses and increased headcount, salaries and employee benefit costs.

TRS-RENTELCO

For the first quarter of 2020, the Company's TRS-RenTelco division reported income from operations of \$8.4 million, an increase of \$0.7 million, or 9%. Gross margin on sales was comparable at 52%, resulting in a 11% decrease in gross profit on

sales revenues to \$2.7 million. Selling and administrative expenses increased 7% to \$6.4 million, primarily due to higher allocated corporate expenses.

ADLER TANKS

For the first quarter of 2020, the Company's Adler Tanks division reported income from operations of \$2.7 million, a decrease of \$1.7 million, or 38%. Rental revenues decreased 13% to \$14.6 million, depreciation expense increased 3% to \$4.1 million and other direct costs decreased 18% to \$2.5 million, which resulted in a 19% decrease in gross profit on rental revenues to \$8.0 million. Reconciliation of Adjusted EBITDA to the most directly comparable GAAP measures

To supplement the Company's financial data presented on a basis consistent with accounting principles generally accepted in the United States of America ("GAAP"), the Company presents "Adjusted EBITDA", which is defined by the Company as net income before interest expense, provision for income taxes, depreciation, amortization, non-cash impairment costs and share-based compensation. The Company presents Adjusted EBITDA as a financial measure as management believes it provides useful information to investors regarding the Company's liquidity and financial condition and because management, as well as the Company's lenders, use this measure in evaluating the performance of the Company.

Management uses Adjusted EBITDA as a supplement to GAAP measures to further evaluate the Company's period-to-period operating performance, compliance with financial covenants in the Company's revolving lines of credit and senior notes and the Company's ability to meet future capital expenditure and working capital requirements. Management believes the exclusion of non-cash charges, including share-based compensation, is useful in measuring the Company's cash available for operations and performance of the Company. Because management finds Adjusted EBITDA useful, the Company believes its investors will also find Adjusted EBITDA useful in evaluating the Company's performance.

Adjusted EBITDA should not be considered in isolation or as a substitute for net income, cash flows, or other consolidated income or cash flow data prepared in accordance with GAAP or as a measure of the Company's profitability or liquidity. Adjusted EBITDA is not in accordance with or an alternative for GAAP, and may be different from non-GAAP measures used by other companies. Unlike EBITDA, which may be used by other companies or investors, Adjusted EBITDA does not include share-based compensation charges. The Company believes that Adjusted EBITDA is of limited use in that it does not reflect all of the amounts associated with the Company's results of operations as determined in accordance with GAAP and does not accurately reflect real cash flow. In addition, other companies may not use Adjusted EBITDA or may use other non-GAAP measures, limiting the usefulness of Adjusted EBITDA for purposes of comparison. The Company's presentation of Adjusted EBITDA should not be construed as an inference that the Company will not incur expenses that are the same as or similar to the adjustments in this presentation. Therefore, Adjusted EBITDA should only be used to evaluate the Company's results of operations in conjunction with the corresponding GAAP measures. The Company compensates for the limitations of Adjusted EBITDA by relying upon GAAP results to gain a complete picture of the Company's performance. Because Adjusted EBITDA is a non-GAAP financial measure as defined by the SEC, the Company includes in the tables below reconciliations of Adjusted EBITDA to the most directly comparable financial measures calculated and presented in accordance with GAAP.
